HEALTHCARE GLOBAL PVT LTD

### ABOUT US

Sanar translates as "TO HEAL". As our name implies, we are dedicated to alleviating the suffering caused by diseases in people's lives by providing 'healing support' in the form of world-class medicines. We specialize in injectables and have a robust product portfolio catering to a wide variety of therapies including Oncology, Anti-infectives, Cardiology, etc.

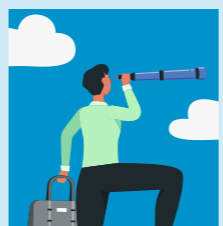

We ensure **QUALITY** with timely deliveries of various products under our portfolio. We are able to effectively serve to large government / private tender sector by meeting their quality and documentation standards, in addition to having strong regulatory support to assure the timely registration of goods for the private market. We are currently active in Southern & Eastern Africa, South East Asia, Latin America, and the CIS. We wish to expand further in these markets to realize our vision of being leaders in supplying world-class medicines in order to achieve our mission of promoting healthier lives.

Sanar is managed by professionals with over 20 years of expertise in the international pharmaceutical market, as well as long-standing experience in managing the technicalities of semi-regulated markets.

### MISSION

To be instrumental in process of healing by providing world-class medicines to people, consequently promoting healthier lives.

### VISION

To be one of the leaders in supplying world-class medicines across the globe.

### QUALITY FOCUS

Our growth is aided by the focus on quality and safety of products. Our products conform to international quality-control standards and meet all the mandatory technical requirements. Our products are derived from the highest quality ingredients. Every facility that manufactures our products is WHO GMP certified and meets PICS standards.
